Accurate as-builts add tremendous value to a building. They provide a cost savings for tenant improvements, remodels, demolition, building maintenance and repairs, leasing and sales and in many other areas. With a good set of easily accessible and accurate as-builts, maintenance can do its job much more efficiently. Buildings can get sold and leased more rapidly. Without excellent information how can a company truly operate and manage a facility as efficiently and quickly as needed in today's fast paced society.
